#### Master of Science: International Technology Transfer Management

bbw University of Applied Sciences

August 2007 – June 2012 (Pune, India)

#### Bachelor of Engineering: Mechanical

University of Pune

### CERTIFICATIONS

- Google Data Analytics Professional Certificate (Coursera)
- Python for Data Science and Machine Learning Bootcamp (Udemy)
- Master statistics and machine learning: intuition, math, code (Udemy)
- Introduction to SQL (Simplilearn)
- Tableau Training (Simplilearn)

### PROJECTS

- GoDaddy (Python): The focus of this project was to study the relationship between target variable and other variables in the dataset. Among other findings, I found a moderate correlation between two variables with  $r = 0.55$ .
- Finance Data Project (Python): The project centered on exploratory data analysis of stock prices. I got an opportunity to apply my skills in pandas and data visualization (matplotlib and seaborn).
- Google Data Analytics Capstone Project (R): The goal of the project was to come up with recommendations to convert casual riders to annual members by analyzing a public dataset of a fictional company Cyclicistic.
- Commonwealth Games 2022 (R and Tableau): I performed EDA to extract valuable insights about top-performing teams and participation trends based on gender. I also created a tableau dashboard to visualize my findings.
- COVID Data Analysis (SQL): With SQL queries in Bigquery I analyzed COVID-19 dataset, which helped me gain insights into the situation of various countries.
